PROMOTING EXCELLENCE IN
PSYCHOLOGICAL HEALTH & WELL-BEING

A Question

 Psychology....on the map?

 How can we be included?

An Idea

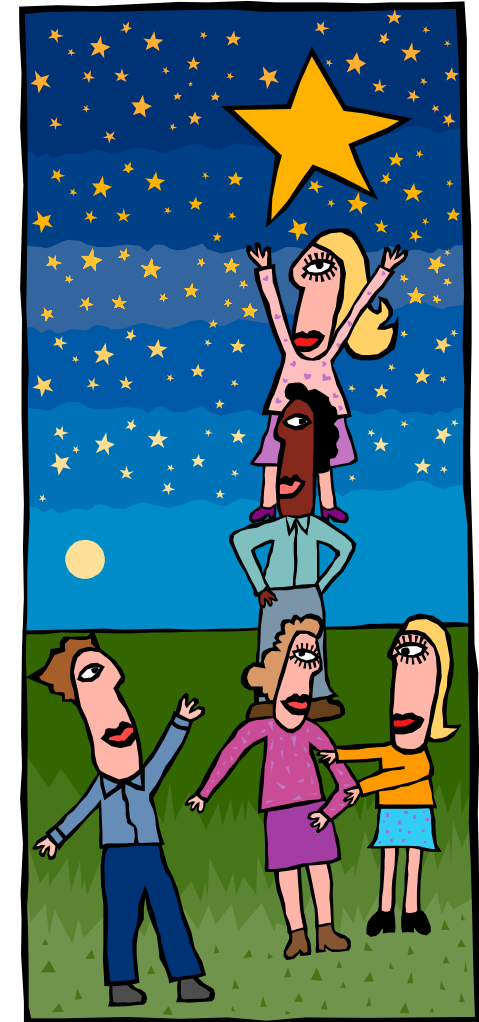

- Bringing together psychological practitioners
 - Clinical psychology, CBT, counselling, HITs, PWP's.....
- Including service providers, education & training, professional bodies
- Strengthening our voice
- A network

Together we are stronger

🌀 Approximately 3000 to 4000 psychological practitioners in the North West

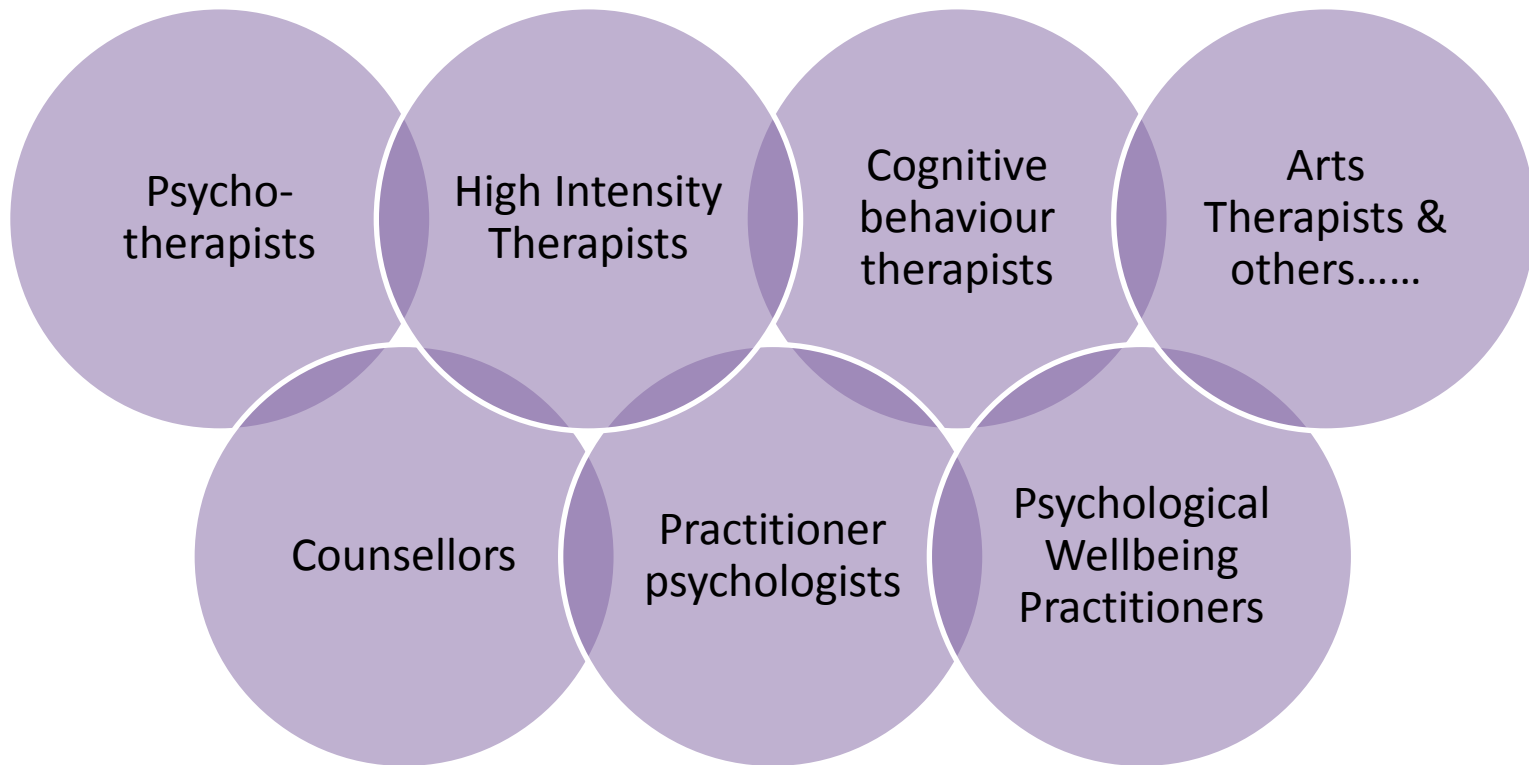

🌀 Together we can be a strong voice

What's important to all of us?

- 🌀 Promoting psychological well-being
- 🌀 Delivering safe and effective psychological services
- 🌀 Access to high quality education and training
- 🌀 Opportunities to share and learn from good practice and innovation

Who are we all?

Support for a Proposal

 A Network

 A Workforce Lead

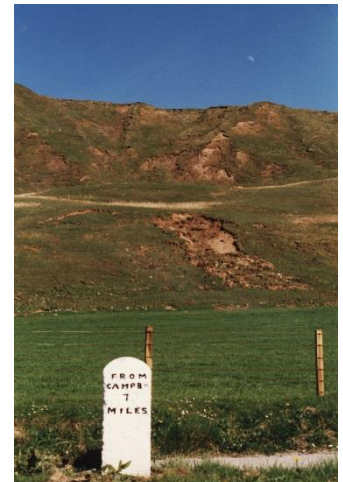

What's in a Name?

- 🌀 Applied Psychology Network
- 🌀 Applied Psychology in Health and Social Care Network
- 🌀 Psychological Practice in Health and Social Care
- 🌀 Psychological Professions Network

So how did we get here?

- 🌀 Clinical psychology leads group – June 2012
- 🌀 IAPT legacy planning phase April 2013-14
- 🌀 Workforce consultation – Summer - October 2012
- 🌀 Wider engagement event – February 2013
- 🌀 Established Interim Steering Group
- 🌀 Engagement with Health Education NW
- 🌀 Network Lead and Steering Group Chair identified
- 🌀 Funding and HENW support – summer 2013
- 🌀 PPN website live December 2013

North West
Centre for Professional Workforce Development
Leading across the workforce networks of Allied Health Professions, Healthcare Science, Pharmacy and Psychological Professions

Welcome to the North West Psychological Professions Network, the new multi-professional network established with the support of Health Education North West. PPN North West is a membership organisation for all psychological practitioners whose primary role is to provide psychological therapies and interventions within NHS funded services for individuals, families and communities in the North West of England. The network will work with key stakeholders to promote parity of esteem between mental and physical health, and champion the important contribution that the psychological professions have to make across the whole of health care.

Members will have access to resources and support to share clinical excellence, develop leadership skills, contribute to research and innovation, and take-up education and training opportunities. It will also provide a single point of contact for those who want to learn more about the psychological professions workforce.

Psychological Wellbeing Practitioner Professional Network

The Psychological Wellbeing Practitioner Professional Network is currently under development by the PWP (Special Interest Group) and aims to ensure that PWPs have solidarity and recognition as a new profession and ensure appropriate representation of the PWP 'voice' in other forums.

What is a PWP?

The **Improving Access to Psychological Therapies (IAPT)** programme was established in 2008 with the aim of establishing psychological therapy services to enable people to receive evidence based, NICE approved psychological therapies and interventions for common mental health problems.

Centre for Professional Workforce Development
is the workforce networks of
Health Professions, Science, Pharmacy and Psychological Professions
